

Now comes
with a built-in
25 year lifetime
warranty on
installation,
product and
maintenance.

Junckers, Europe's leading manufacturer of real solid hardwood flooring, now offers a full lifetime warranty on the installation, manufacture and maintenance of its products on selected projects. The unique Junckers Approved Flooring Contractor scheme will offer the client, specifier and builder the opportunity of ensuring that the floor installed will be fitted correctly, the flooring will be of the highest quality and the long term maintenance will be carried out correctly by professional companies so that the client has no worries of safety and performance of his floor for 25 years.

One Hundred Percent

Junckers Ltd will fully warrant the complete package of the manufacture, supply, installation, maintenance and performance of the hardwood flooring for the lifetime of the floor which for this purpose will be 25 years.

This will apply only:

**If installed by a Junckers Approved National Flooring Contractor.
Maintained in accordance with Junckers maintenance guidelines by a Junckers Approved Flooring Contractor.
Maintained using Junckers maintenance products.**

Junckers Approved National Flooring Contractors are selected by Junckers for their technical ability, quality of workmanship, ability to carry out the work both financially and logistically and their professional commitment to providing a top quality floor for the client.

The JUNCKERS APPROVED NATIONAL FLOORING CONTRACTORS attend full product training at the Junckers Training Facility and improve their knowledge of Junckers products and installation/maintenance techniques further at yearly seminars.

Once the floor is fitted Junckers work closely with the client to ensure that correct maintenance procedures and advice are set in place. The Junckers Approved National Flooring Contractor will offer and carry out a long term maintenance package paid for by the client. This will follow Junckers specific guidelines. It will include a yearly check of the floor.
